

Harrisons Beauty (now Harrison James, harrisonjames.uk): job, page structure and look

<https://www.harrisonjames.uk/>

Tracked as CRO-22. Live site looked at on 2026-09-29.

What this is

A worksheet for deciding how this client's public site should work and look, and why. It replaces the earlier decision PDF, whose recommendations rested on evidence that did not hold up. It recommends nothing. Everything under 'What is on the site today' is what was visible in screenshots, described by eye.

What is different this time

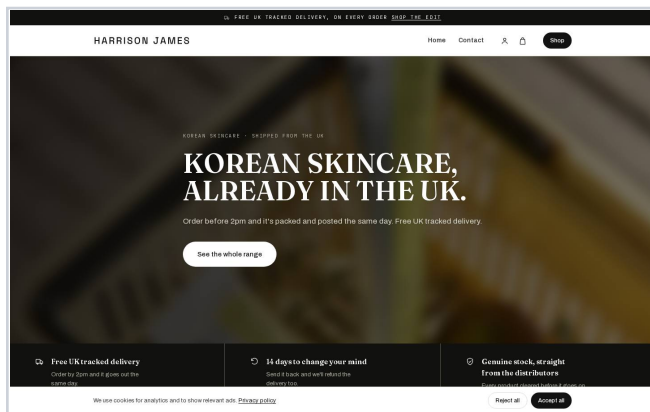

- Three steps, in this order: the job (who is visiting and what they need), the page structure (what leads, where the main action sits), then the seven looks.
- The page layout is now part of the decision. The old rule that section order and button positions must not move is withdrawn (craft CHARACTER.md, 26 September). Keeping the current layout is fine, but it needs a reason too.
- Every reason is in your own words and is about this client's customer. 'Industry standard', 'best practice', 'visitors expect it', 'it looks professional' and 'it is familiar' do not count as reasons.
- Do not look at what other businesses in the same trade do. Take evidence from this client's customers: reviews, enquiries, conversations, what people search for.
- An option must come from something the client has: the logo, premises, paperwork, their trade or their customers. Anything can change, nothing is kept just because it is there.

How to fill it in

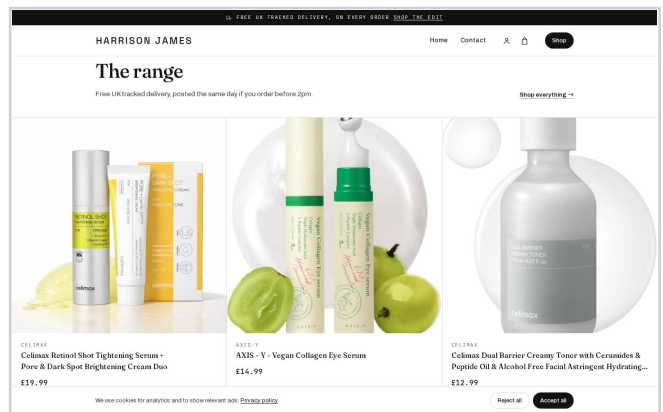

- Open in Preview on a Mac, or the Files app on an iPhone. Type into the boxes and tick the tick boxes.
- Where the site shows something marked 'to check', do not treat it as true until it is checked.
- Save the filled copy, attach it to the same Linear issue and move the issue to Done.
- It counts as decided when the job is written, every page listed in Part 2 has all four answers, and at least five of the seven looks have a choice and a reason.

What the live site looked like

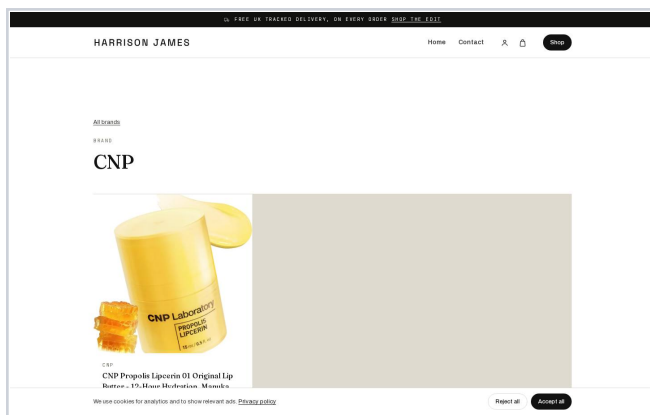

Screenshots taken by machine and looked at by eye. The cookie banner was left as found; nothing was clicked or submitted.

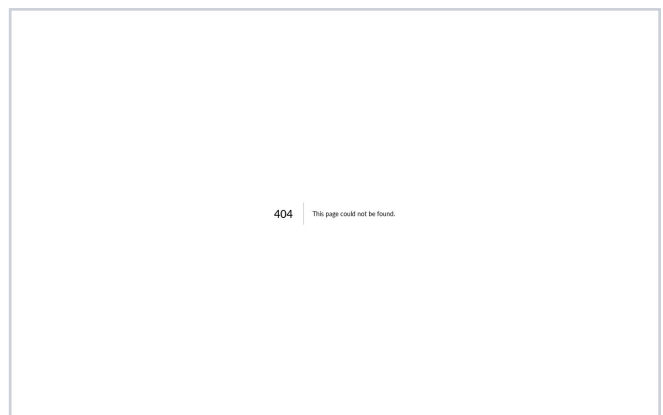

Home, first screen (desktop)

Home, the range (desktop)

Brand page (desktop)

Contact link (desktop)

What is on the site today

Pages looked at: Home, Shop, A brand page (CNP), Contact.

- harrisonsbeauty.com now redirects to harrisonjames.uk. The shop calls itself HARRISON JAMES in a wide-spaced sans wordmark, black on white.
- The page is white and off-white with a black announcement bar and a black promise strip; there is no accent colour, so colour comes only from product photos.
- The hero headline is KOREAN SKINCARE, ALREADY IN THE UK. in capitals in a high-contrast serif over a dark, blurred photo with an olive-gold tint. Section headings elsewhere are the same serif in sentence case. Small labels (BROWSE, FEATURED) are spaced monospace capitals.
- Corners are square with hairline dividers, but the main buttons (Shop, See the whole range) are pills.
- Home runs: announcement bar, hero, three promises (free tracked delivery, 14 days to change your mind, genuine stock), shop by concern (seven icon tiles), brands (six), this week's hero product, the range as a product grid.
- Product images are brand-supplied packshots (Celimax, AXIS-Y, CNP and others), not the shop's own photography.
- On the CNP brand page one product sits beside a large empty beige panel.
- The Contact link in the header opened a page that displayed 404 This page could not be found.

To check before relying on any of it

- Which brand and address this client is now trading as needs confirming: the estate lists Harrisons Beauty, and the live site is Harrison James. It shares a name with the accountancy site.
- The hero photo is too blurred to say what it shows, so it cannot be judged or described as the client's own.
- Whether the shop may use the brand packshots is not shown on the page.
- The Contact link showed a 404 in the capture. Check it in a normal browser before treating it as a fault.
- The cookie bar was left open along the bottom.

Screenshots taken with scripts/visual/capture.mjs and looked at by eye. Descriptions say what was visible on the screen. Font names, hex codes and image ownership were not read from code and are not claimed.

Part 1: the job

Who visits this site and what are they trying to get done? Write about the customer, not about the business or its competitors. Use what you know from real reviews, enquiries and conversations.

Who visits, and what has just happened to make them look?

They want to ...

an action word (find, book, decide, check, get, arrange ...)

what they want to get done. Not 'a trade website' or the trade itself

in what situation, under what pressure (today, cheaply, without being talked down to ...)

What has to get done (the practical need)

How they want to feel by the end

How long do they take to decide?

☐ Low: minutes or a day ☐ Considered: days ☐ High: weeks or months

Why that speed (from what customers actually do)

Part 1: the job (continued)

Who do they have to explain or justify the choice to, and what would make them look good or bad?

What worries them before getting in touch? What has gone wrong for them or people they know?

Their own words for the problem and for what they want. Exact quotes, one per line

Where each of those came from (a review, an enquiry, a conversation, a search). Names and dates, not links to other businesses' sites

Part 2: page structure, Home

Decide what this page is for, what leads, and what order it runs in. Keeping today's order is allowed, with a reason.

Page

Prefilled: Home

The one main action a visitor should take on this page (for example: call now, book, send an enquiry)

Where the main action sits (tick all that apply)

- ☐ Header ☐ First screen ☐ After proof or reviews ☐ Middle of page ☐ Bottom of page
☐ Stays on screen

Why it sits there. Say how fast the customer decides, or which worry it answers

The order the sections should run, top to bottom, one per line, each with a few words on why

Section names craft understands: hero, logos, stats, cards, marquee, text, other, cta-band, footer-cta, pricing, testimonials, faq, process, features, team, contact.

What leads (the one thing seen first) and what is deliberately smaller

Part 2: page structure, A brand page

Decide what this page is for, what leads, and what order it runs in. Keeping today's order is allowed, with a reason.

Page

Prefilled: A brand page

The one main action a visitor should take on this page (for example: call now, book, send an enquiry)

Where the main action sits (tick all that apply)

- ☐ Header ☐ First screen ☐ After proof or reviews ☐ Middle of page ☐ Bottom of page
☐ Stays on screen

Why it sits there. Say how fast the customer decides, or which worry it answers

The order the sections should run, top to bottom, one per line, each with a few words on why

Section names craft understands: hero, logos, stats, cards, marquee, text, other, cta-band, footer-cta, pricing, testimonials, faq, process, features, team, contact.

What leads (the one thing seen first) and what is deliberately smaller

Part 3: look 1 of 7, Display face

The typeface for headlines.

On the site today (seen by eye)

High-contrast serif capitals in the hero; same serif in sentence case elsewhere

Your decision

☐ Keep what is there ☐ Change it ☐ None (for signature only)

What it should be

Where it comes from: the logo, the premises, paperwork, the trade or the customers

Why, in your own words, about this client's customer

Part 3: look 2 of 7, Body face

The typeface for text, buttons and forms.

On the site today (seen by eye)

Plain sans; spaced monospace capitals for small labels

Your decision

☐ Keep what is there ☐ Change it ☐ None (for signature only)

What it should be

Where it comes from: the logo, the premises, paperwork, the trade or the customers

Why, in your own words, about this client's customer

Part 3: look 3 of 7, Accent colour

The one colour that means 'press this'.

On the site today (seen by eye)

None: black and white

Your decision

☐ Keep what is there ☐ Change it ☐ None (for signature only)

What it should be. A colour name, or a hex code taken from something the client has

Where it comes from: the logo, the premises, paperwork, the trade or the customers

Why, in your own words, about this client's customer

Part 3: look 4 of 7, Ground

The page colour.

On the site today (seen by eye)

White and off-white with black bands

Your decision

☐ Keep what is there ☐ Change it ☐ None (for signature only)

What it should be. A colour name, or a hex code taken from something the client has

Where it comes from: the logo, the premises, paperwork, the trade or the customers

Why, in your own words, about this client's customer

Part 3: look 5 of 7, Shape

How corners and edges look.

On the site today (seen by eye)

Square corners and hairlines; pill buttons

Your decision

☐ Keep what is there ☐ Change it ☐ None (for signature only)

What it should be

Where it comes from: the logo, the premises, paperwork, the trade or the customers

Why, in your own words, about this client's customer

Part 3: look 6 of 7, Motif

The one recurring detail.

On the site today (seen by eye)

Icon tiles for concerns; spaced wordmark

Your decision

☐ Keep what is there ☐ Change it ☐ None (for signature only)

What it should be

Where it comes from: the logo, the premises, paperwork, the trade or the customers

Why, in your own words, about this client's customer

Part 3: look 7 of 7, Signature

The one moment of motion, or none.

On the site today (seen by eye)

Not seen in still screenshots

Your decision

☐ Keep what is there ☐ Change it ☐ None (for signature only)

What it should be

Where it comes from: the logo, the premises, paperwork, the trade or the customers

Why, in your own words, about this client's customer
