

RMP Electrical: job, page structure and look

<https://rmp-electrical.co.uk/>

Tracked as CRO-23. Live site looked at on 2026-09-29.

What this is

A worksheet for deciding how this client's public site should work and look, and why. It replaces the earlier decision PDF, whose recommendations rested on evidence that did not hold up. It recommends nothing. Everything under 'What is on the site today' is what was visible in screenshots, described by eye.

What is different this time

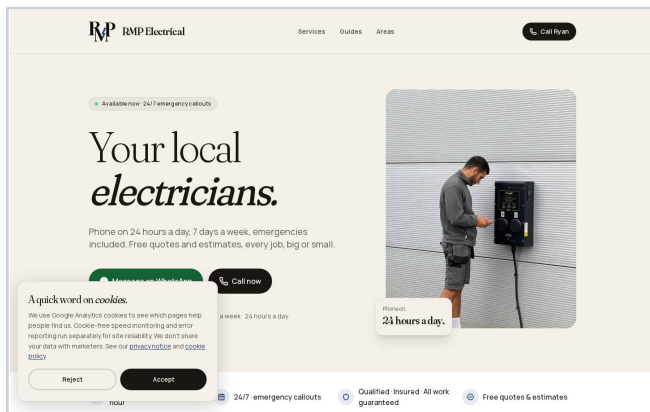

- Three steps, in this order: the job (who is visiting and what they need), the page structure (what leads, where the main action sits), then the seven looks.
- The page layout is now part of the decision. The old rule that section order and button positions must not move is withdrawn (craft CHARACTER.md, 26 September). Keeping the current layout is fine, but it needs a reason too.
- Every reason is in your own words and is about this client's customer. 'Industry standard', 'best practice', 'visitors expect it', 'it looks professional' and 'it is familiar' do not count as reasons.
- Do not look at what other businesses in the same trade do. Take evidence from this client's customers: reviews, enquiries, conversations, what people search for.
- An option must come from something the client has: the logo, premises, paperwork, their trade or their customers. Anything can change, nothing is kept just because it is there.

How to fill it in

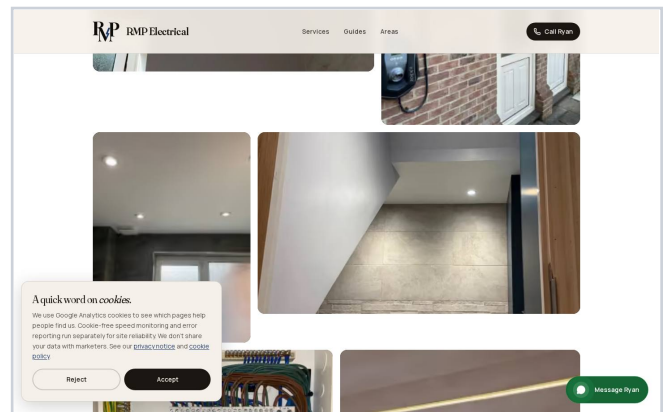

- Open in Preview on a Mac, or the Files app on an iPhone. Type into the boxes and tick the tick boxes.
- Where the site shows something marked 'to check', do not treat it as true until it is checked.
- Save the filled copy, attach it to the same Linear issue and move the issue to Done.
- It counts as decided when the job is written, every page listed in Part 2 has all four answers, and at least five of the seven looks have a choice and a reason.

What the live site looked like

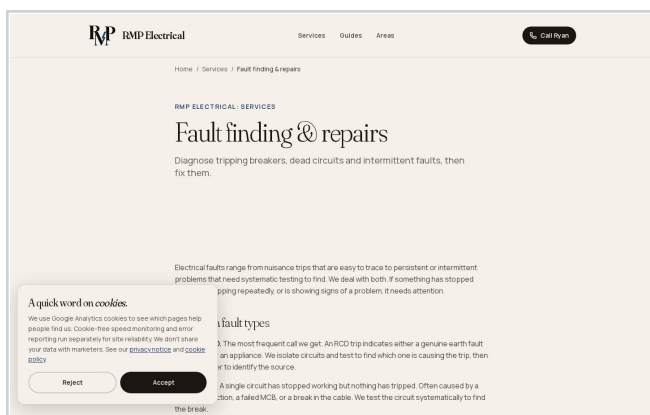

Screenshots taken by machine and looked at by eye. The cookie banner was left as found; nothing was clicked or submitted.

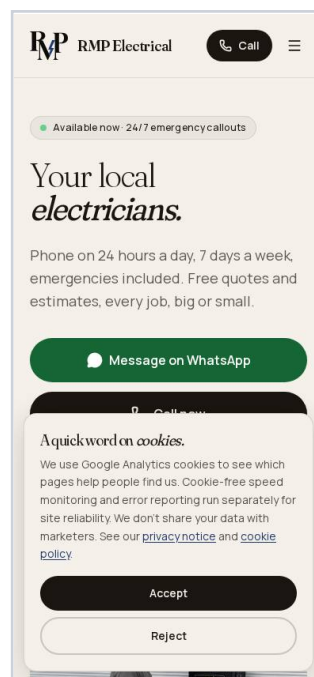

Home, first screen (desktop)

Home, recent work (desktop)

Service page (desktop)

Home, first screen (mobile)

What is on the site today

Pages looked at: Home, Services, A service page (fault finding), Guides.

- The logo is a black serif RMP monogram with a small blue lightning bolt through the M, next to the words RMP Electrical.
- The page is warm cream, alternating with white bands, and one near-black band (the quote form) with a faint grain.
- Three action colours sit side by side: a green WhatsApp button, a near-black Call button, and navy for labels, links and icons.
- Headlines are large light serif with the last words in italic (Your local electricians. / Small jobs, done properly. / Real jobs. Real homes.). The same italic-ending pattern repeats on every section.
- Cards, photos and buttons have generous rounded corners; buttons are pills; the service tiles use small icons in pale grey-blue squares.
- The first screen shows a real person (a man in grey work clothes reading his phone beside an EV charger) with a floating card saying Phone on, 24 hours a day, and a badge naming Uxbridge, West London and Ryan Pumfrey.
- Recent work is a grid of phone-style job photos (ceiling light, backlit mirror, outdoor lantern with EV charger, spotlights, consumer unit, LED strip). Quality varies and some look soft.
- Home runs: hero, trust strip (24/7, qualified, free quotes), dark quote form, eight service tiles, recent work, how quoting works, about Ryan, reviews with owner replies.
- A green Message Ryan button floats bottom-right on every screen; a cookie card covers the bottom-left.
- The service page is a plain reading layout with a breadcrumb; no photo was visible in the screens captured.

To check before relying on any of it

- The service page has an empty band of about 150 pixels between the intro line and the first paragraph. Cause unknown: it may be an image that did not load, or a scroll reveal.
- The cookie card was left open, so it hides part of every screen. Nothing was clicked.
- The site says every recent-work photo is from a real job. RMP should confirm that.
- The reviews carry names and owner replies. Where they come from (Google or elsewhere) is not shown on the page.
- The Areas page was not captured.

Screenshots taken with scripts/visual/capture.mjs and looked at by eye. Descriptions say what was visible on the screen. Font names, hex codes and image ownership were not read from code and are not claimed.

Part 1: the job

Who visits this site and what are they trying to get done? Write about the customer, not about the business or its competitors. Use what you know from real reviews, enquiries and conversations.

Who visits, and what has just happened to make them look?

They want to ...

an action word (find, book, decide, check, get, arrange ...)

what they want to get done. Not 'a trade website' or the trade itself

in what situation, under what pressure (today, cheaply, without being talked down to ...)

What has to get done (the practical need)

How they want to feel by the end

How long do they take to decide?

☐ Low: minutes or a day ☐ Considered: days ☐ High: weeks or months

Why that speed (from what customers actually do)

Part 1: the job (continued)

Who do they have to explain or justify the choice to, and what would make them look good or bad?

What worries them before getting in touch? What has gone wrong for them or people they know?

Their own words for the problem and for what they want. Exact quotes, one per line

Where each of those came from (a review, an enquiry, a conversation, a search). Names and dates, not links to other businesses' sites

Part 2: page structure, Home

Decide what this page is for, what leads, and what order it runs in. Keeping today's order is allowed, with a reason.

Page

Prefilled: Home

The one main action a visitor should take on this page (for example: call now, book, send an enquiry)

Where the main action sits (tick all that apply)

- ☐ Header ☐ First screen ☐ After proof or reviews ☐ Middle of page ☐ Bottom of page
☐ Stays on screen

Why it sits there. Say how fast the customer decides, or which worry it answers

The order the sections should run, top to bottom, one per line, each with a few words on why

Section names craft understands: hero, logos, stats, cards, marquee, text, other, cta-band, footer-cta, pricing, testimonials, faq, process, features, team, contact.

What leads (the one thing seen first) and what is deliberately smaller

Part 2: page structure, A service page

Decide what this page is for, what leads, and what order it runs in. Keeping today's order is allowed, with a reason.

Page

Prefilled: A service page

The one main action a visitor should take on this page (for example: call now, book, send an enquiry)

Where the main action sits (tick all that apply)

- ☐ Header ☐ First screen ☐ After proof or reviews ☐ Middle of page ☐ Bottom of page
☐ Stays on screen

Why it sits there. Say how fast the customer decides, or which worry it answers

The order the sections should run, top to bottom, one per line, each with a few words on why

Section names craft understands: hero, logos, stats, cards, marquee, text, other, cta-band, footer-cta, pricing, testimonials, faq, process, features, team, contact.

What leads (the one thing seen first) and what is deliberately smaller

Part 3: look 1 of 7, Display face

The typeface for headlines.

On the site today (seen by eye)

Large light serif, last words in italic

Your decision

☐ Keep what is there ☐ Change it ☐ None (for signature only)

What it should be

Where it comes from: the logo, the premises, paperwork, the trade or the customers

Why, in your own words, about this client's customer

Part 3: look 2 of 7, Body face

The typeface for text, buttons and forms.

On the site today (seen by eye)

Clean rounded sans

Your decision

☐ Keep what is there ☐ Change it ☐ None (for signature only)

What it should be

Where it comes from: the logo, the premises, paperwork, the trade or the customers

Why, in your own words, about this client's customer

Part 3: look 3 of 7, Accent colour

The one colour that means 'press this'.

On the site today (seen by eye)

Navy for links and labels; green for WhatsApp; near-black for Call

Your decision

☐ Keep what is there ☐ Change it ☐ None (for signature only)

What it should be. A colour name, or a hex code taken from something the client has

Where it comes from: the logo, the premises, paperwork, the trade or the customers

Why, in your own words, about this client's customer

Part 3: look 4 of 7, Ground

The page colour.

On the site today (seen by eye)

Warm cream with white bands and one near-black band

Your decision

☐ Keep what is there ☐ Change it ☐ None (for signature only)

What it should be. A colour name, or a hex code taken from something the client has

Where it comes from: the logo, the premises, paperwork, the trade or the customers

Why, in your own words, about this client's customer

Part 3: look 5 of 7, Shape

How corners and edges look.

On the site today (seen by eye)

Large rounded corners, pill buttons

Your decision

☐ Keep what is there ☐ Change it ☐ None (for signature only)

What it should be

Where it comes from: the logo, the premises, paperwork, the trade or the customers

Why, in your own words, about this client's customer

Part 3: look 6 of 7, Motif

The one recurring detail.

On the site today (seen by eye)

Italic ending on each headline; small icons in pale squares

Your decision

☐ Keep what is there ☐ Change it ☐ None (for signature only)

What it should be

Where it comes from: the logo, the premises, paperwork, the trade or the customers

Why, in your own words, about this client's customer

Part 3: look 7 of 7, Signature

The one moment of motion, or none.

On the site today (seen by eye)

Not seen in still screenshots

Your decision

☐ Keep what is there ☐ Change it ☐ None (for signature only)

What it should be

Where it comes from: the logo, the premises, paperwork, the trade or the customers

Why, in your own words, about this client's customer
